Libraries/Frameworks: Bootstrap  
Tools / Platforms: Git, VS Code, GitHub  
Databases: MongoDB

## PROJECTS / OPEN-SOURCE

### Spotify Replica mini UI | [Link](#)

Html, CSS

A lightweight, responsive music streaming interface & visually engaging static music streaming interface built using frontend development.

Technologies Used: HTML5, CSS3 (Flexbox, Grid, Media Queries).

Key Highlights:

Developed a Spotify-inspired design with a focus on clean, modern aesthetics.

Utilized CSS Flexbox and Grid for responsive and adaptive layouts.

Used custom CSS animations and transitions for enhanced user interaction.
